Age Group: P-12
Learning Area: All learning areas
Category: Leadership;
Activities and Exercises;
Assessment

Learn all the components of creating your own online moodle course!
Years P-12

Karen Vitek

Summary:

Moodle is an open source online learning management system that allows teachers to create content that can be accessed online by their students. Many educators are using online tools to enhance the learning environment in their classroom. Moodle is a great solution for getting your classes into an online learning environment that you can design and modify. This book is designed to get you up and running with the options that best suit your classroom situation. Educators in all areas will find resources on how to manage their course and take advantage of all that Moodle has to offer.

Making the Most of Moodle features resources with examples, suggested classroom activities, gradebook options, step-by-step instructions, helpful tips and more!
