Summary:

Learn and teach in exciting new ways using more than 130 iPod touch, iPhone and iPad mobile digital device apps.

“Apps”, an abbreviated term for applications for handheld devices, are a phenomenon of the 21st century. The iPod touch, iPhone and iPad mobile digital devices have changed the way we think about computing. We now can hold the computer in the palm of our hand and know that “there’s an app for that”.

The iPod touch, iPhone and iPad devices have great potential in the educational arena because they are very mobile, allowing for use any time, anywhere and any place. Put the pizzazz back into learning!

iLearn iTeach iPod touch, iPhone and iPad Apps for Curriculum includes apps for a range of learning areas including fine arts, science, mathematics, reference and prep for students from pre-prep to adult. Patsy Lanclos includes links for each app to the publisher’s website and to the iTunes store page.
