**Summary:**

Learn and teach in exciting new ways using many mobile digital device apps for the iPad. The iPad is a favourite of all age groups because of many factors including, but not limited to, portability, features, fun, screen resolution, audio output, versatility and ease of use. In fact, many schools are now selecting the iPad as the device to use in a 1:1 scenario or on classroom carts. As such, decisions must be made as to the apps to install.

Enter iLearn iTeach: Apps for iPad, a fantastic resource to help educators and administrators wade through the 400,000 available apps to find those that will be effective and suitable for their classroom. The apps covered in this book cover a wide range of topics including maths, science, English, fine arts, productivity and reference for students and adults of all ages.

Patsy Lanclos is a leader in the technology PD field and she shares her knowledge and experience here so that other teachers can learn and grow.
