Summary:

Even the most hesitant learner will be brought out of their lazy daze by *GameWize: Making History & Geography Fun! with Microsoft Office, 2nd Edition*. This resource will invigorate your classroom with learning-based, competitive games that your students will be begging to play.

Each game is fully customisable for each unique classroom environment, and can be used as a whole-class activity, or at stations set up around the classroom for partners or small group competitions. Game components can be modified to make them more relevant to current topics of study, helping to create a more memorable learning experience for yourself and your students.

The pre-prepared game templates make it easy for teachers to just start the program, open the file, ask a question, get an answer and begin the game. No extra time for preparation is needed for many of the games included. With these fun, competitive games, students will want to master their skills in order to surge past the competition and win. Games include:

- Bust the Trust
- Concentration
- Connect 5
- Face the Facts
- Hangperson
- Make it Quick
- Person, Place or Thing
- Stair Climber
- KaBlam!
- Are You Smart Than an Nth Grader?
- Noughts-and-Crosses
- Triangle Trivia
- Vocab Velocity
- Where's Weirdo?
- Who Wants to be a Zillionaire?
